AUDITOR

Ernst & Young 27/F, One Taikoo Place, 979 King's Road, Quarry Bay, Hong Kong

REPORT OF THE MANAGER

Global Market Review

The global markets experienced a positive first six months of 2025, driven by lower expectations of future inflation and the growing influence of artificial intelligence. The 10-year treasury yield stabilized around 4.3%. The reduced expectations of future inflation allowed investors to use a lower normalized risk-free rate, resulting in a positive rerating for equity indexes. Additionally, the resilient consumer and services demand contributed to a lower probability of a US recession in 2025. As a result, the S&P 500 P/E multiple increased to 25X.

During this period, the S&P 500 index saw a 5.5% increase, ultimately rebounded after a series of twists and turns. After experiencing market and political turbulence, the Nasdaq continues to reach new historical highs, growing by 5.5% and maintaining an upward trend. Among them, technology remains the leading sector, with a growth rate of 8.6%, while the consumer and industrial sectors show an overall stable performance. In the fixed income space, 20-year US Treasuries (+4.8%), convertible bonds (+6.1%), and high yield credit (+2.5%) all delivered positive absolute returns. Due to various factors such as inflation and political issues, the price of gold against the dollar has surged by 25.8%.

Portfolio Strategy Review

Foundation Global Income and Growth Fund chieved a solid 39.1% return since its inception in March 2020, whilst the benchmark (50% MSCI ACWI Index + 50% Bloomberg Barclays Global Aggregate Total Return Index Value Unhedged USD) increased by 48.1% during the same period. For investors who opted for share classes with distribution, a consistent monthly distribution of 0.55% has been delivered since the fund's inception. The Fund demonstrated strong downside protection with a low annualized volatility of 10.8% since inception. In terms of sectors, the fund identifies long-term value in software, semiconductor, and consumer sectors due to their multi-year secular growth momentum.

Our approach to investing is to seek businesses with durable competitive strengths "moat", able and high-grade management, sound financial standings, good returns on the net tangible assets, opportunities for high-quality growth, and finally, a sensible stock price. No matter the macro situation, these principals are ingrained in Foundation's way of investing. As long as our companies continue to deliver good results, we do not need to make material changes to our positions. In other words, we can sail through the stormy seas with a focus on the long-term horizon.

In terms of fixed income, short duration fixed income instruments delivered strong returns amid Fed rate hikes. We remain selected in longer duration fixed income securities.

Market Outlook

The political risks associated with tariffs have gradually decreased, but uncertainty still exists, and the trade landscape remains variable, significantly affecting the chip industry. Inflation concerns are easing, and the Federal Reserve has also put interest rate cuts on the agenda; however, the frequency and magnitude of these cuts are still under debate.

Geopolitical and economic risks have increased, but companies with strong balance sheets, resilient margins, and earnings are expected to support growth. Valuation differences within the markets remain wide, providing opportunities for stock selection. As active managers, the team is optimistic about prospects for stock selection and continuously seeks new ideas that meet our stringent criteria for quality and value creation.

NOTES TO THE FINANCIAL STATEMENTS

1. THE FUND AND THE SUB-FUND

Foundation Fund Series (the "Trust") was constituted as an open-ended unit trust established as an umbrella fund under the laws of Hong Kong pursuant to a trust deed dated 20 September 2018, as amended and restated on 31 December 2019. Foundation Global Income and Growth Fund (the "Sub-Funds") is sub-fund under the Trust.

The manager of the Trust is Foundation Asset Management (HK) Limited (the "Manager") and the trustee is ICBC (Asia) Trustee Company Limited (the "Trustee"). The custodian is Industrial and Commercial Bank of China (Asia) Limited (the "Custodian").

The Trust and the Sub-Fund have been authorised by the Securities and Futures Commission of Hong Kong (the "SFC") under section 104(1) of the Hong Kong Securities and Futures Ordinance and are required to comply with the Code on Unit Trusts and Mutual Funds (the "SFC Code") established by the SFC. Authorisation by the SFC does not imply official approval or recommendation. As at 30 June 2025, the Trust has one sub-fund namely Foundation Global Income and Growth Fund, in respect of which separate class of unit was issued. Foundation Global Income and Growth Fund was launched on 18 March 2020 (date of commencement of operations).

The investment objective of Foundation Global Income and Growth Fund is to provide income distribution and long-term capital growth by investing in global equities and debt securities.

BASIS OF PREPARATION

The financial statements of the Sub-Fund have been prepared in accordance with IFRSs as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Accounting Standards Committee of the IASB, and the relevant disclosure provisions of the Trust Deed and the relevant disclosure provisions specified in Appendix E to the SFC Code.

The financial statements have been prepared on a historical basis, except for financial assets and liabilities (including derivatives financial instruments) at fair value through profit or loss ("FVPL") that have been measured at fair value. The financial statements are presented in United States dollars ("USD") and all values are rounded to the nearest USD except where otherwise indicated.

The Sub-Fund has adopted for the first time all the applicable and effective IFRSs.

The accounting policies and methods applied in preparation of these interim financial statements are consistent with those applied in annual financial statements of the year ended 31 December 2024.

The interim financial statements are not audited.

For the period ended 30 June 2025

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

3. NET ASSETS ATTRIBUTABLE TO UNITHOLDERS

The consideration received or paid for units issued or re-purchased respectively is based on the value of the Sub-Fund's net asset value per unit at the date of the transaction. In accordance with the provisions of the Trust Deed, Sub-Fund investment positions are valued based on the last traded market price or closing price for the purpose of determining the trading net asset value per unit for subscriptions and redemptions. The Sub-Fund's net asset value per unit is calculated by dividing the Sub-Fund's net assets with the total number of outstanding units.

Redeemable units can be issued and redeemed on each valuation day, i.e. every business day of the calendar year. The holders of redeemable units may subscribe or redeem the redeemable units on any business day by no later than 4:00p.m. (Hong Kong time) on the relevant business day. Both subscription and redemption prices are calculated by reference to the net asset value per unit of the relevant class as at the valuation day.

With a view to protecting the interests of all unitholders, the Manager may limit the number of units of any sub-fund redeemed on any redemption day to 10% of the total number of units of the relevant sub-fund in issue. In this event, the limitation will apply pro rata so that all unitholders of the relevant sub-fund who have validly requested to redeem units of the Sub-Fund on that redemption day will redeem the same proportion of such units of the Sub-Fund.

The movement of the units held by the unitholders during the period is as follows:
